

DISTRIBUTION TRANSFORMERS

CG offers an extensive range of Distribution Transformers to meet the requirements of power distribution, wind farm energy, utilities and industries. These transformers are manufactured at our units in Belgium, India and Ireland.

Description	Ratings	Voltages	Standards
<u>Amorphous Metal Cores Distribution Transformers</u>	Up to 2.5 MVA	Up to 36 kV	IEC
<u>Autotransformer</u>	Up to 30 MVA	Up to 72.5 kV	IEC
<u>Cast Resin Dry Type</u>	Up to 10 MVA	Up to 36 kV	ANSI,IEC,IS
<u>Conventional Oil Cooled Distribution Transformers</u>	Up to 4 MVA	Up to 33 kV	ANSI,IEC,IS
<u>Corrugated Tank Oil Cooled Transformers</u>	Up to 2.5 MVA	Up to 33 kV	ANSI,IEC,IS
<u>Converter Transformer</u>	As Per Requirements	As Per Requirements	IEC,IS
<u>Low Power Oil Immersed Transformers</u>	Up to 31.5 MVA	Up to 132 kV	ANSI,IEC,IS
<u>Neutral Grounding</u>	Up to 1.25 MVA	Up to 66 kV	ANSI,IEC,IS
<u>Phase-Shifting</u>	Up to 5 MVA	Up to 36 kV	IEC
<u>Self Protecting Distribution Transformers</u>	Up to 400 kVA	Up to 36 kV	IEC
<u>Single-phase Pole mount Distribution Transformers</u>	Up to 100 kVA	Up to 36 kV	IEC
<u>SLIM Transformer®</u>	Up to 10 MVA	Up to 72.5 kV	IEC
<u>Bio-SLIM® Distribution Transformers</u>	Up to 7 MVA	Up to 72.5 kV	IEC
<u>Small Power Distribution Transformers</u>	Up to 14 MVA	69 kV, 350 kV BIL	IEC
<u>Steep-Wave Distribution Transformers</u>	As per Requirements	As per Requirements	IEC
<u>Three-phase Pole or Platform Type Transformers</u>	Up to 5 MVA	Up to 36 kV	IEC
<u>Solar Application Transformer</u>	Up to 5 MVA	Up to 36 kV
